

# **Cape Cod Climate Change Collaborative**

## **Join the Campaign for Education and Advocacy**

### **Purpose of the Collaborative**

The Collaborative is a Cape-wide campaign to unite the varied expertise and experience of Cape Cod organizations to address the impacts of climate change. The challenge for the Collaborative is to spur local and regional actions to mitigate these impacts by linking available knowledge, talent and tools of Cape Cod organizations.

***TO JOIN THE CCCCC, PLEASE COMPLETE THE FORM BELOW AND RETURN TO  
CAPECODCLIMATE@GMAIL.COM***

**Name of organization:**

**Contact (name, phone, email, website):**

**Mission statement:**

**General description of organization's activities:**

**Activities related to climate change:**

**Ways people can get involved in your efforts to address climate change:**

**Your commitment to further initiatives, inter-organization collaboration and public communication:**

*Please describe your current and proposed commitment(s) to climate change-related education, action, research or other initiatives planned by your organization. These could include protecting natural landscapes that absorb carbon, reducing your organization's carbon footprint by making changes in lighting, transport, using Energy Star appliances and installing solar, wind or thermal power (see accompanying factsheet). The Collaborative will develop a website that will track each organization's progress towards their commitments to address climate change.*

**Additional thoughts / ideas:**

*Please help us build a list of additional means for enhanced peer collaboration and communication. These suggestions will be beyond the scope of your organization and are meant to provide members of the public and the Collaborative with additional ways to respond to the challenges of climate change.*
